The Section of Hospital Pharmacists (Sekce nemocničních lékárníků, SNL) is an expert section of the Czech Pharmaceutical Society of the Czech Medical Association J. E. Purkyne. It mainly associates pharmacists from hospital pharmacies but also other professionals interested in hospital pharmacy.

SNL is a member of the European Association of Hospital Pharmacists (EAHP) and it takes part in their events.

SNL regularly organizes professional events. The largest of them are the Congresses of Hospital Pharmacy which have been held each November since 1996 and One-day Meetings of Hospital Pharmacy taking place in May every year. Currently, an updated version of the conception is being in process; its final version should be launched in summer 2010.

The main objectives of the field are stipulated in the Conception of Hospital Pharmacy which the section developed and approved in 2000.
